INNOVATIONS IN SLITTING TOOLS

Knives for the paper, film, and foil converting industry

HEAVY DUTY SCORE CUT ASSEMBLIES AND SCORE ANVIL CYLINDERS

A broad range of sizes covers many heavier materials. Through-hardened sleeves in tool steel for extreme slitting pressures.

SCORE CUT KNIFE HOLDERS

INTERTECH is the leader in precision score cutting. We offer knife assemblies in all sizes to suit your needs. INTERTECH products are built to the highest German standards which we helped establish 45 years ago. Our quality is evident in each component that makes up these precision assemblies.

A WORLD OF NEW MATERIALS...

requires a knowledgeable approach to slitting and converting. With 45 years of experience INTERTECH can offer immediate solutions to difficult problems.

Your customers demand higher accuracy and the highest quality slit edges on materials ranging from tissue to bullet proof Kevlar®; from ultra fine fiber non-wovens to abrasives and heavy board stocks.

Each job requires a combination of the best quality tools and correct set-up to achieve your goals.

SHEER CUT SYSTEMS

NARROW WIDTH SLITTING

Complete Male and Female assemblies are in stock for all the popular rewinders. These are available for slit width from 1/4" to 1" wide. Special widths starting at 1/32" are available upon request.

(See left and right photos)

PNEUMATIC SHEAR SYSTEMS

Featuring easy set-up and use, these popular units are standard on many medium and large machines. The patented "soft-cut" knife engagement adds significantly to knife life. (see photo below)
